

SHALAKYATANTRA

GOVERNMENT AYURVED MAHAVIDYALAYA,
NAGPUR

OUR VISION

“The vision of the Shalakyatantra Department is to provide quality and effective Ayurvedic care for diseases related to eye, ear, nose, throat, and oral health, while combining classical Ayurvedic principles with modern diagnostic methods. The department aims to promote better patient care, early diagnosis, practical training for students, and advancement in specialized Ayurvedic treatment.”

OUR MISSION

“The mission of the Shalakyatantra Department is to provide accessible, patient-centered care through specialized Ayurvedic therapies, develop competent and compassionate practitioners through strong clinical teaching, and encourage academic growth through regular research, skill development, and community health awareness.”
